Dan Abbott was asked not to show up at the criminal fr by the prosecutors office. He said he had never had any conflict with Joe Dozier.

John Everette made a lot of statements that others were going to say in court. Most of his facts given in this hearing were either mistaken or out and out lies. The all show malicious intent on his part to make Joe look like someone he was not. His lies are a malicious act intended to hurt and destroy the reputation of a boy he did not even know in

order to secure the release of a killer He took his malice even further by stating several things that he was going to prove Joe was guilty of doing.

1. He loved to fight. No one could be found to test that they had ever fought with Joe.
2. Sold Drugs. This was never an issue, It never happened, No police record of any kind.
3. Used Drugs Joe never used drugs, Smoked, or even drank much. (A mixed drink at New years maybe).
4. Fought with Police Where? No police department in Washington or Benton Counties had No reports of any kind on Joe. Siloam had a failure to appear on a Seat belt violation. No violations in Adair county either.

According to Mr. Everett, Joe was a trouble maker who deserved what happened to him; all the things that he made claims to were bios. He knew this when he made those claims. His only thought was disgracing Joe and making his client look innocent I did not care that the lies he told were pai and discredited a boys l4fe and character His disrespect for the It and death of our son was malicious and should not be al/owed In any court in this country. A lie should not be introduced in order to free the guilty.
